Candidate for

# Republican Committeeman Precinct 221

I'm Bob Weeks, candidate for Republican Precinct Committeeman.

You may have seen me testify before the Wichita City Council, opposing taxpayer giveaways and no-interest loans to developers and business.

You may be aware of my volunteer work to bring greater accountability and transparency to the Wichita public schools before approving an expensive bond issue.

As the writer of the *Voice For Liberty in Wichita*, one of the most popular political blogs in Kansas, I do quite a bit of thinking about Wichita and Kansas politics. And I think there's room for improvement.

Everywhere we look, politicians of both parties seek to expand the role of government.

It's not only in important things like education and health care. It's even in simple

things like how we will dispose of our trash or entertain ourselves with sports and arts.

We simply have too much government.

As precinct committeeman, I will work for, and vote for, party leaders and policies that will advance the cause of liberty and limited government.

By reducing the intrusiveness of government, we can create a laboratory of economic freedom in Wichita that would restore Wichita's tradition of entrepreneurship.

This is the best way to create prosperity in our community.

The alternative is more power in the hands of politicians and government bureaucrats. That means less liberty for us, the people.

If you agree with the things that I believe in, please vote for Bob Weeks on August 5, 2008.
